## RESTRICTION REQUIREMENT

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-5 drawn to a cable trough, classified in class 254, subclass 389+.
- II. Claims 6,7, and 11, drawn to a plurality of equipment rack in combination with a plurality of cable troughs, classified in class 324, subclass 365+.
- III. Claims 8-10 drawn to a method of managing cables, classified in class 370, subclass 254+.
- IV. Claim 12 drawn to a telecommunications equipment rack, classified in class 211, subclass 26+.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sarah Purol whose telephone number is 571-272-6834. The examiner can normally be reached on Mon. Tues. Thurs. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
